

This architectural elevation drawing shows a long building facade with several distinct sections. From left to right:

- Section 1:** A gabled roof with a peak elevation of +9.200. The first floor has a window level of 2.NP=+3.070, and the ground level is marked as 1.NP=-0.620.
- Section 2:** A hipped roof with a peak elevation of +9.660. The second floor has a window level of 2.NP=+3.950. The ground level is marked as ±0.000 ZÁKLADNÍ 0,000 PRO CELÝ SO1.
- Section 3:** A central section with a steep gabled roof and a peak elevation of +15.880. The second floor has a window level of 3.NP=+7.700, and the ground level is marked as 1.NP=-0.130.
- Section 4:** A long section with a hipped roof and a peak elevation of +10.730. The second floor has a window level of 2.NP=+3.750, and the ground level is marked as 1.NP=-0.200.
- Section 5:** A section with a gabled roof and a peak elevation of +14.160. The second floor has a window level of 2.NP=+3.750, and the ground level is marked as 1.NP=-0.200.
- Section 6:** A small section on the far right with a gabled roof and a peak elevation of +14.160. The second floor has a window level of 3.NP=+7.530, and the ground level is marked as ±0.000.

The drawing includes various window types, including rectangular, arched, and multi-paned windows. The roof is depicted with a cross-hatch pattern. Elevation markers are provided for the roof peaks, floor levels (NP), and ground levels (UT).
